Hongrong, September 26th, 1893. The trade between Burmah and Yunnan, as to the possibilities of which so much has from time to time been written, is at present confined within very narrow limits and shows no tendency to increase. Imports and exports together amounted in the year 1890.91

to 16 lakhs, the following year to 15 lakhs only, and in 1892-93 to 151 lakhs. These figures induce the Rangoon Gazette to speak in a generally disparaging tone of the agitation in favour of "tapping" trade which our contemporary evidently thinks is worth very little at the best. The trade with Western China, it says, is the very smallest of all Burmah's frontier trades, as the following figures show. The total for Western China last year was 153 Southern Shan States 22 lakhs; Zimme 24 lakhs; Karenni close on 30 lokhs; and the Gazette, "surely no one can doubt that (instructed Mr. H. L. Deonys.) "our best markets are the countries "under our own control, where we can "give trade a fair chance, and that our "Eastern Club." Praya East, was charged with "markets instead of pursuing such Will-o'-"the-wisps as the trade with Western China," Burmah's principal trade, however, is with India. Four years ago, in 1889-90, the of 477 lakhe; the next year it rose to 560 lakhs, in 1891-92 there was again an increase, though a much smaller one, to 568 lakhe; and last year it rose again with in its own way, without any special fostersurprising that the Gazette should look with

If steamers were placed on the route no doubt there would be a further great expansion of trade, but even junk carriage has infinite advantages over mule and coolie carriage. It may be that the prospec's of the trade of Burmah with Western China are not such as to justify on commercial grounds the outlay of capital necessary for the construction of a railway, but nevertheless there is a valuable trade to bo tapped if suitable places for the tapping can be found. One such place has been found at Mengtez, and the experience to undertake general exchange business in gained there ought to stimulate the British China and Japan as well as in India from the lat. confirmed. As it was first mooted it was a measure which, in the opinion | Estimate of losses to pay...... I may say of the whole of the residents in the colony, was eminently unsatisfactory as entailing a very heavy expenditure which could ill be borne by the rate payers, and which was, in a great measure, unnecessary. The unofficial member of Council, ac ing as the representatives of the taxpayers and concurring in their views, there upon addressed a mamo ial to the Right fonourable the Secretary of State petitioning against such a heavy expenditure being laid upon them Their memorial was strongly apported by your Excellency and was suly forwarded. But it was not till the 31st May that the signatories received a conv of a despatch from the Marquis of Ripon dated 4th March, recommending a considerably modified schame. Abcompanying this, in the orders of the day," was a notice that the Hon Colonial Secretary would, at a meeting of Conncil to be held on the 2nd June, move that a sam of \$147.500 be roted for the purpose of carrying out the Marquis of Ripon's new scheme.
